Profile/Type	VOLEX STEELINIUM	Other Profile
Surface Treatment	Double-sided Steelinium plate spraying, wood grain heat transfer printing, roll coating	Veneer, melamine, PVC, paper, plastic, etc
Board core	Activated Steelinium board	Wood blocks, wood chips, wood chips, particles, powder, fiber, bagasse, rice husks, straw and other miscellaneous materials, and even paper, old furniture, building materials waste
Environmental protection grade	Zero formaldehyde, but also can purify formaldehyde, environmental protection level far beyond ENF standards	E2 Class E1 Class E0 class (almost no domestic)
	<p>The formaldehyde emission of Steelinium board is zero, and the harmful gas in the environment is purified at the same time, the formaldehyde purification rate can reach 72.8%; The moisture content of Steelinium board is 0.5%, and the expansion rate of water absorption thickness is 0 Effective resistance to Escherichia coli, Staphylococcus aureus, antibacterial rate reached far infrared hair ,99.9%</p> <p>With an emission rate of 0.84, Steelinium board has the advantages of net aldehyde environmental protection, anti-mildew and antibacterial, fire and flame retardant, waterproof, insect and ant proof, corrosion resistance, sound insulation, impact resistance, easy installation, renewable, etc., and has a wide range of applications</p>	<p>Low environmental protection coefficient, swelling in water, deformation, no fire, no insect protection, Mouldy bacteria, cracking</p>

● summarize

VOLEX Steelinium board from the top, wall, cabinet, door, floor and other multi-dimensional layout, in order to take into account the aesthetic and functional international design, to create a more advanced sense, hierarchical and intelligent sense of custom products, to provide consumers with high-end one-stop whole house integrated solution. Make the living space healthy, environmental protection, safety, no odor, quick installation and live, for the end customer to realize the dream of staying in the bag

10

Ten advantages of Volex Steelinium Board

TEN ADVANTAGES OF
VOLEX STEELINIUM BOARD HOUSEHOLD

Green environmental protection zero formaldehyde release can purify formaldehyde

non—mold, easy to clean and antibacterial

Through the testing of professional testing institutions, Steelinium board zero formaldehyde release, formaldehyde purification rate of 72.8% ((provide test report

Through the detection of professional testing institutions, the antibacterial rate of Steelinium ehagainst Escherichia coli reached 99.9%, and t achedeantibacterial rate of Staphylococcus aureus r (99.9% (submit test report

Can soak water does not swell

Fire and mothproof

Through the testing of professional testing institutions, , the moisture content of Steelinium board is 0.5%

The surface of the Steelinium board is made of double-sided Steeliniumplate, which can effectively flame retardant and prevent insects Ant attack

Resistant to impact and not easy to deform

Stronger structure

Through the testing of professional testing institutions, the static bending strength of Steelinium board is 33.4 Mpa

The Volex Steelinium is made of high density active Steelinium Board material, which makes the structure stronger

Sound insulation property

Product thickness is close to solid wood

The VolexSteelinium board is made of double-sided Steeliniumplate with full core Steelinium board in the middle to make sound waves

Single sheet 1.22×2.44, 1.22×2.75 standard, 18 cm plate up to

And the spread of heat is greatly limited, solid and has good sound insulation, heat insulation performance

Above 30kg, the door panel is made more thick and no empty sound

Rich color inventory less

The process is mature and the production speed is faster

Wood grain series, skin series, highlight series, thousands of colors at will, a plate to do the whole house custom, inventory pressure is less

Can all adopt the plate home production process to achieve automated production
